To Whom It May Concern:

Question 1) In the specifications/scope of work document it states "Excavate grass areas in both end zones area approx. 9,800 sf", our take offs are showing closer to 13,000 sf of grass areas between both D zones. Can you please confirm if 9,800 sf is correct and should be the size of the area used, and if that does account for both end zones grass area?

Plattin Primary

Principal: Tina Basler

Answer for Question 1) 9800 was an estimate. The specs indicate the measurements fall under your review. If you feel 13,000 is correct then I would indicate the 13,000 number in your bid.

Question Number 2) I was looking to verify that the schedule on the Invitation to bid is correct and the project must complete by April 2. Is there any leniency in this schedule?

Answer for Question 2) At this time the schedule provided will remain in place to fulfill the complete comparison for all bidders. The dates provided within the RFP packet will be used for the duration of the bid project.

This information is being provided as outlined on page 2 paragraph 3 which states... "All questions must be received in writing by noon on February 19, 2021. Questions will be answered through addendum at 3 p.m. February 19, 2021."

Sincerely,
